

## Mini We-Space Gatherings on Bornholm Summer 2019 and onwards ...

*Yggdrasil Living Wholeness offers a perfect sanctuary for today's world. The concentrated environment of presence and spaciousness that Nicky and John maintain as individuals is reflected in the we-space environment they create. Visionary centres of this caliber are valuable resources for anyone seeking to explore depth in community.*

### Experimenting with We-Space gatherings

Throughout the summer 2019 and until the end of the year when our new facilities will be completed, we will be holding single day We-Space gatherings with small groups of 3 to 5 people. There are no fixed dates for these experimental encounters. They will emerge spontaneously with people who feel drawn to come to Bornholm and who want to follow their impulse to meet with others in new configurations and locations.

### A sanctuary for listening to the emerging future

The gatherings will take place in our home, *Ny Elleskov*, in Østerlars on the island of Bornholm.

It is possible to sleep over in our first guest accommodation, extending your stay for as long as you want before and after the event.

### A taster experience

A mini We-Space gathering will provide you with a direct experience of the principles of the larger We-Space experiments (5 to 7 days) that are currently emerging and coalescing in the field of higher consciousness. Each day will start at 8am and will go through to the evening around 9pm. As part of our work together, we will be cooking simple meals and eating together. We will provide the food taking into account any dietary needs.

### Sensing, listening, expressing

The day will start with a period of sitting in silence/meditation before taking breakfast together. We will then meet in a circle to share what is alive within us and in the space. We will work with three focusses: (1) learning to tune into our inner senses, (2) listening to what wants to come through us as individuals and as a We, (3) voicing our impulses and following up on our intuition.

### Be curious and connect to your Whole Self

We-Space gatherings are for people curious and willing to open themselves up to new ways of being with others and working together, and being in service to much bigger than ourselves. When we are committed to receiving each other unconditionally and to sharing our inner life within outer realities, then we access the wholeness of who we really are. The We-Space acts as a portal opening up the flow of creativity and Love.
